

Bamboo tent instructions

5 Bamboo poles	2 metal stabilizer poles	3 white curtains	2 small lanterns
2 wooden support beams	4 large cable ties	4 lengths gold fabric	4 pieces rebar
Roll of tape			

- 1 Place 2 metal stabilizers on ground, 180cm apart from each other.
- 2 Place 4 bamboo poles over the metal poles, tapered ends towards the sky.
- 3 Doing one side at a time, cross the bamboo poles together, & secure with a cable tie
- 4 Complete step 3 on the opposite side
- 5 Take 1 support pole, & support structure from outer edge, secure with cable ties.
- 6 Repeat step 6 on the opposite side
- 7 Thread 4 curtains onto last bamboo pole
- 8 Place pole with curtains over foundation poles
- 9 Decorate as desired. Wrap gold fabric around 2 intersections to hide cables.
- 10 If windy, use rebar for extra support at base of poles into ground. Wrap with fabric to conceal.
